BAREBONE MINI PC · NO MEMORY, NO DRIVE

ADV-MP6650

13th generation Intel Core I5-13420H · WIFI 6 · two network ports · 65 W

IT SHIPS WITH NO MEMORY AND NO DRIVE
The integrator picks the DDR5 RAM and the storage

A barebone mini PC: it brings a 13th generation Intel Core i5-13420H processor, WiFi 6, Bluetooth 5.2 and two network ports, with two SODIMM DDR5 slots and a free SATA bay so that each buyer picks memory and storage. A 65 W adapter is included.

LAPTOP POWER IN A MINIMAL CHASSIS

REFERENCE IMAGE

PROCESSOR	MEMORY	NETWORK	ADAPTER
Core i5-13420H	2 DDR5 slots	2 × RJ-45	65 W

WHAT IT SOLVES

The base ready, the configuration up to you

13th generation Core I5
An i5-13420H at 2.10 GHz with integrated graphics: work laptop performance in a minimal desktop machine.

Two DDR5 slots
SODIMM DDR5 memory in two slots and an internal SATA bay: it gets built with the capacity each case needs.

Two network ports
Two independent RJ-45 ports, rare in a mini PC: it allows network uses that a single port cannot.

WIFI 6 and Bluetooth 5.2
Wireless connection at 2.4 and 5 GHz on the 802.11ax standard, plus Bluetooth for keyboard and mouse.

ADVANCE

Part number
BBADVMP6650

What barebone means: it arrives with no RAM and no drive: it brings the processor, the board, the chassis, the WiFi and the power supply, with the slots left free. That is why it costs less than a complete mini PC, and why the budget has to add the DDR5 memory, the storage and the OS license.

WHERE IT FITS

Made for the integrator and for tight spaces

BUILT TO ORDER

Each project with what it needs

It lets you size memory and storage to the use and the budget, instead of paying for a fixed configuration that may fall short or go to waste.

- 2 SODIMM DDR5 slots
- Internal SATA expansion

NETWORKS AND SERVICES

Two networks in one machine

The two RJ-45 ports let you split traffic or join two segments: useful in access control, digital signage or network services.

- 2 Ethernet ports
- WiFi 6 and Bluetooth 5.2
- HDMI and DisplayPort

DESK AND COUNTER

It takes up what a tower does not have

A minimal chassis and an external 65 W adapter: it fits behind a monitor, on a counter or in a signage rack without taking up floor space.

- External 65 W adapter
- 4 USB 3.0 and 2 USB-C
- Card reader
